

NELSON VALERO BARCELONA

FULL STACK DEVELOPER

+34 622 428 891 | nelsonvbarcelona@gmail.com | linkedin.com/in/nelyb | github.com/Nelvb
Portfolio: portfolio-nelvbs-projects.vercel.app | Madrid, Spain

PROFILE

Full Stack Developer experienced in JavaScript, TypeScript, Python, and SQL. Specialized in building scalable, modular platforms optimized for SEO and testing. I stand out for applying the right technology according to business needs, designing architectures that ensure maintainability and teamwork, making it easier for new developers to onboard quickly.

EXPERIENCE

Full-Stack Developer & SEO

The Roas Factory – Digital Marketing Agency. | the-roas-factory.vercel.app

Madrid, Spain | 2025 - Present

Developed the corporate website with **React.js**, **React Router**, **React Helmet**, optimized with technical **SEO** (dynamic metadata, Open Graph, GTM). Participated in creating digital platforms across multiple industries, adapting architecture and technologies to client needs. **Built reusable templates** and clear documentation to accelerate development and simplify maintenance.

Key Clients / Projects:

Boost A Project – Real Estate Investment Platform. | boostaproject.es

Modular architecture with **Next.js App Router** (frontend) and **Flask** (backend); admin panel with CRUD for articles and custom HTML editor; 270 total tests (187 frontend + 83 backend, 93% backend coverage); advanced security with **JWT** in **HttpOnly cookies** + **CSRF**.

LABANDA Industrie Services– Architecture, Urban Planning & Strategic Infrastructure. | labandaguinea.com

Trilingual corporate landing page (**FR/EN/ES**) built with **Vue 3**, **TypeScript**, **Tailwind**, and **vue-i18n**; modular and fully responsive architecture; technical **SEO** with dynamic metadata, **sitemap**, and **Open Graph**; functional contact form powered by **Web3Forms**.

LHC Legal & Consulting – SaaS Legal Platform. | lhc-legal-consulting.vercel.app

Admin panel with dynamic legal sections and blog with 12 articles; **SmartLink.tsx** for smooth navigation in **Next.js** without flickering; complete testing suite with 124+ frontend tests (**React Testing Library** + **Jest**) and >90% backend coverage (**Pytest**).

Nexia Fitness – SaaS for Personal Trainers. | nexia-frontend-phi.vercel.app

Monorepo architecture with pnpm workspaces (apps/web + packages/shared); shared logic ready for React Native; testing with **Vitest** + **MSW** + **RTL** (in progress); key technical role defining naming standards, validations, and UX.

Esstupendas – Beauty Salon

Architecture with **Next.js 15** + **Tailwind** + **Zustand** and **Flask** + **PostgreSQL**; local **SEO** with dynamic routes per city/service; integrated Booksy for bookings and private promotions area.

KEY CONTRIBUTIONS

- **Scalable & Clean Architecture:** Monorepos, modular division, and best practices that improve maintainability and team onboarding.
- **Professional Testing:** Production projects with >90% coverage (Boost A Project, LHC Legal) and robust suites with **Vitest**, **Jest**, **RTL**, and **Pytest**.
- **UX & SEO:** Smooth experiences with SmartLink.tsx and content systems using automatic slugs and dynamic metadata.
- **Advanced Security:** **JWT** + **CSRF**, synchronous frontend-backend validations, role-based route protection.

TECH STACK

Front-End: JavaScript, TypeScript, React.js, Next.js, Vue 3, Vite, Redux Toolkit, RTK Query, Zustand, Tailwind CSS | **Back-End:** Python, Flask, SQLAlchemy, JWT | **Databases:** PostgreSQL, MySQL | **Version Control:** Git, GitHub | **DevOps:** Docker, GitHub Actions (CI/CD), Vercel, Render, Fly.io | **Testing:** Vitest, Jest, React Testing Library, Pytest, Playwright
